

Palo Pinto ISD Community,

We want to take this opportunity to shout out the praises of the Palo Pinto ISD staff, students, families, and the entire community after the release of the 2022 Accountability Ratings today, August 15, 2022. We want the public to be able to celebrate the staff and students, as well as the families and community of our great district. Our results are profound and we hope you will help us to spotlight our district by SHARING this information. Because we are a smaller district, it might appear to be easier to achieve these results. However, in reality, our district is comprised of 65.5% economically disadvantaged students and a single student carries much weight since our student enrollment is small. We are proud to say, in many aspects, including accountability, as should be evident with these results, that every single student matters to us. Our small teacher-to-student ratio makes an astronomical impact on student growth and achievement!

There is a table below that shows the performance of various schools in our county. However, you are able to look at school/district accountability results where this information came by visiting <https://txschools.gov/>.

2022 District/Campus Accountability Results for Palo Pinto ISD

Domain Scores:

- Student Achievement: 93 (A)
- School Progress: 92 (A)
- Closing the Gaps: N/A
- OVERALL: 93 (A)

This means that based on our accountability results from the 2022 testing and attendance data, our district is labeled as an "A"-rated district/campus by the Texas Education Agency. This is the highest rating a district/campus can achieve.

Further, Palo Pinto Elementary School (PPES) was eligible for 4 Distinction Designations, a rigorous accountability label that only top schools achieve. Of those 4 Distinction Designations, Palo Pinto Elementary EARNED 2 Distinctions! The information is specifically explained below:

Distinctions

- ELA/Reading Performance—PPES was in Quartile 1 (Q1) of our comparison group in Attendance Rate, Accelerated Student Progress in ELA/Reading, and Grade 4 Reading Performance at the MASTERS Grade Level. In order to earn a distinction, the campus had to achieve Q1 (Top Quartile) in at least 50% of the eligible

indicators. PPES had 3 eligible indicators of which the school achieved Q1 in 3/3 or 100% of those indicators.

- Post-Secondary Readiness—PPES was in Quartile 1 of the comparison group in % of STAAR Results at MEETS Grade Level or Above for All Subjects and for % of Grade 3-8 Results at MEETS Grade Level or Above in BOTH READING AND MATH. In order to earn a distinction, the campus had to achieve Q1 (Top Quartile) in at least 50% of the eligible indicators. PPES had 2 eligible indicators of which the school achieved Q1 in 2/2 or 100% of those indicators.

Distinctions NOT Earned Because Campus was **INELIGIBLE**:

- Science Performance--PPES did not have enough students tested in Grade 5 to meet the minimum size criteria.
- Social Studies Performance--PPES did not test in Social Studies, as this subject is not tested until Grade 8.
- Top 25%: Comparative Closing the Gaps

With this said, again we feel the students, their families, the staff, and the community of Palo Pinto ISD deserve much praise and appreciation for achieving these results. Our staff and students, with the help of student families and the supportive community, put in tireless effort to ensure our district's students are cared for, loved, and are not only minimally prepared, but surpass the expectations set by the state to MASTER rigorous grade level content at the current and future grade levels. To be rated an "A" in every domain, as well as an overall "A", and to earn distinctions for which the school is eligible, speaks volumes to the work ethic of all stakeholders at Palo Pinto ISD. Test scores are by far not everything, but that is partly how public schools are currently evaluated, so schools must perform and praise their stakeholders when they do well. Palo Pinto ISD will continue to work hard to maintain such high standards, as this is not an easy task. But, with the help and support of great staff, student body, and community, we are assured that our future looks bright. Congratulations Palo Pinto ISD!
